Broadway and Fifty-sixth Street  
New York, N. Y.

Attention: Mr. Woods

Gentlemen:

We propose to make two (2) signs about 18 5-8 inches by 3 1-4 inches, with raised letters and flat border, of bronze, mounted on a background of bronze oxidized light statuary. The letters and border can be either polished or oxidized a lighter color than the background. These signs will be provided with chains or hooks so that they can be removed easily. The cost will be Thirty-six Dollars (\$36.00) for the two (2) signs, delivered to your office.

We will make one (1) Sign, about 20 inches by twelve inches in the same manner as above signs with the exception that moulding will be of an Ogee border to conform with the moulding on the bronze door. There will be a rosette in each corner for applying sign to lime-stone front. The cost of this sign put up, will be Forty-eight Dollars (\$48.00).

Sketches showing the lay-out of the lettering are enclosed.

Yours very truly

H. H. UPHAM & CO.

APPLIED BRONZE LETTER SIGNS

APPLIED BRONZE LETTER SIGN

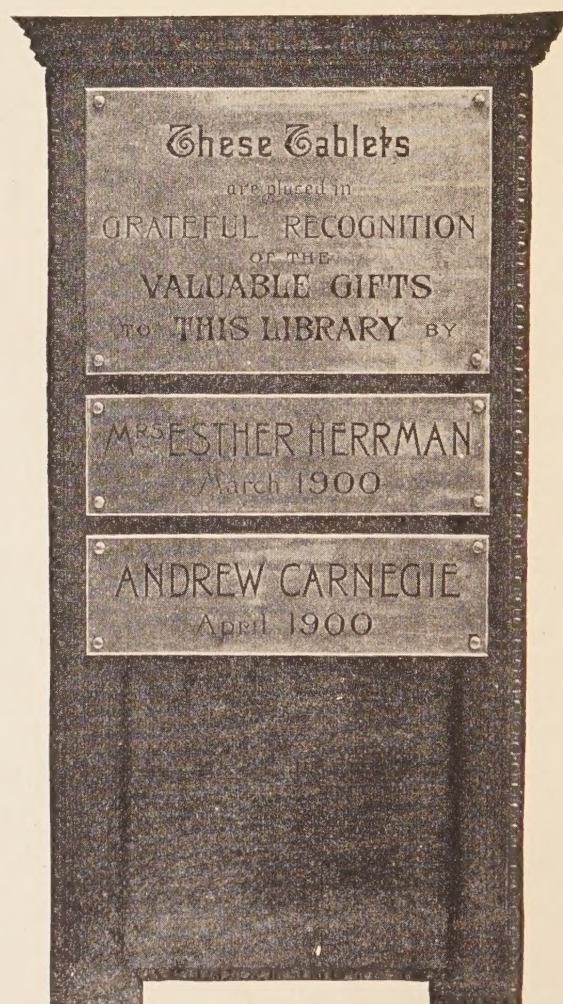

APPLIED BRONZE LETTER SIGN

**Applied Bronze Letter Signs.**

Bronze Signs with Cast Letters applied to oxidized metal backs are a substitute for the more costly style in Cast Bronze.

They can be designed with any style of letter or trade-mark, and with a variety of cast bronze frames, or with the background having a simple beveled edge.

Attention M. J. Green

Dear Sirs:

Concerning the bronze sign of which you made sketches,  
I am holding this matter for a while as there seems to be a  
divergence of opinion as to where it should go. I will  
communicate with you later.

Very truly yours,

Curator.
